Subject: **Formulation of 5th Perspective Plan DAD Works: 2017-18 to 2022-23**

To meet deficient infrastructural needs, Defence Accounts Department is constructing office, residential and transit accommodations for its officers and staff across the countries. These construction activities are executed in a planned manner by fixing priorities and objectives and working within the ambit of Five Year Perspective Plans.

2. It is a matter of pride for the department that 175 Projects have been successfully completed under three 05 Year Perspective Plans. The 4th Perspective Plan, 2012-13 to 2016-17 is nearing completion. It has now been considered to formulate the **5th Perspective Plan: 2017-18 to 2022-23** for a cohesive and inclusive growth of the infrastructural assets of the Defence Accounts Department in the form of new office, residential and transit accommodation.

3. It is felt that only those projects may be taken up in the 5th Perspective Plan which may be perceived to be completed within the time frame of the plan. In this connection, broad points that may be considered are outlined as under:

- i. The works which are in progress and at tender stage are to be carried forwarded in the 5th Perspective Plan.
- ii. The works for which necessity was accepted by the CGDA and recee board constituted are to be carried forwarded to 5th Perspective Plan.
- iii. Where land is available with DAD, PCsDA/CsDA may critically reexamine the initial necessity of construction of office/residential accommodation. If the necessity for utilization of land stands, the projects may be carried over to the 5th Perspective Plan.
