<u>Subject: Nidhi Update : Daily Upload of PM data in Nidhi Software package</u>

Earlier version of Nidhi supported upload of PM data only once in a month. Accordingly Controllers use to upload PM data in Nidhi only once at the end of the month to which it was pertaining. As per existing procedure only one PM was prepared by AoGEs. This was available for uploading/downloading only in the subsequent months. This case was further delayed in case of Industrial personnel paid through TLBs.

Nidhi package has been modified to facilitate daily/weekly upload of PM data.

In view of aforesaid please find update 4.1 on Nidhi. This succeeds update 4 sent last on 29/04/14 . Unzip the attached folder, copy the contents and replace the scripts of same name in MyFund . This contains

1) facility of upload of PM data pertaining to GP Fund(codehead 015/01) on required basis i.e. daily/weekly etc or as and when required.

2) Facility of login for last 3 years. However only Reports pertaining to previous yrs can be viewed. A subscriber's detail can also be viewed for previous years.

3) Year 2015 visible in dropdown box in Report section to enable reports for 2015.

This has the approval of Jt.CGDA(IT).
